

## FINAL PROJECT OF THE COURSE AGENDA 2030: ICT TOOLS FOR SUSTAINABLE DEVELOPMENT

Željka Gajdek, Secondary School Topusko

Roma, 8.3.2024.

### SGD 13: Climate Change

I focused on Goal 13 because my school participates in Erasmus+ project of the Association of Croatian Secondary School Principals. The goals of that Erasmus+ project are green and digital transformation of schools.

GOALS	TIMELINE	EXPECTED OUTCOME
1. Raising the awareness of the teacher of Secondary School Topusko about the importance of teaching about climate changes.	March – June 2024.	The teachers gained knowledge about Goal 13 of the Agenda 2030.  Teachers know that climate change can be taught in any subject.
2. Informing the teachers of Secondary School Topusko about the possibilities of using digital tools in teaching about the fight against climate change.	March – June 2024.	The teachers know how digital technologies can be used in the fight against climate change.  The teachers received information about Mouse ( <a href="https://mouse.org/">https://mouse.org/</a> )
3. Inclusion activities aimed at combating climate changes in the Curriculum of Secondary School Topusko.	September 2024.	The curriculum of Secondary School Topusko contains activities to combat climate changes.
4. Implementation of activities to combat climate changes in the Secondary School Topusko.	October 2024. – June 2025.	Students know the importance of fighting against climate change.  Students know how to use technology in the fight against climate change.
